October 4, 2024

Dear Sir,

Re: DoPT's IST-2024-25-Course on Land Acquisition-Avoiding Costly Mistakes, November 25-29, 2024

Greetings from Centre for Management of Land Acquisition, Resettlement & Rehabilitation (CMLARR), Administrative Staff College of India (ASCI), Hyderabad!

We are happy to bring to your kind attention the Annual Training Calendar of Department of Personnel & Training (DoPT) that includes the upcoming 5-day residential Course on 'Land Acquisition, Resettlement & Rehabilitation (LARR)-Avoiding Costly Mistakes' from 25th to 29th November, 2024 to be conducted at ASCI. The training calendar for the All-India Service Officers has been uploaded on the iGOT platform (letter issued by the Department attached).

Difficulty in acquiring land has emerged as one of the most critical challenges in meeting our ambitious infrastructure targets. **There are many mistakes being committed in land acquisition process with high financial implications for the state exchequer.** Most often, such mistakes are avoidable, caused in part by ignorance of legal provisions, court judgments and in many other cases lack of adequate due diligences prior to acquisition of land. Proactive measures to holistically understand the project area and meticulously plan to avoid/manage potential delays; proactive measures to curb malpractices and curb cost; ensuring adherence to critical requirements of acquisition laws to prevent judicial vulnerability; assessment of diverse models of land assembly and utilization of a combination of these viz. land purchase, lease etc. as per the requirement of the project; adopting sound technical planning with social inputs etc. are all critically important in projects involving land acquisition and resettlement. These issues form the crux of the upcoming DoPT sponsored course.

CMLARR, ASCI is the leading institute in the country in capacity building for practitioners on Land acquisition, having conducted more than 130 dedicated land acquisition courses for more than 5000 officers and 125 organizations, including more than 1300 revenue department officers from 23 state governments.

Sir, an advice from your kind office to the All-India Service Officers in the State with four years of service (upto 2019 batch) including District Collectors and senior officers dealing with land acquisition in various departments regarding the Course and advising participation shall be immensely helpful.

Assuring an outstanding result oriented practical learning experience for the officers

Thank you very much

Sincerely,

(Dr. Reshmy Nair)

Training Program on

Resilient Rural Development in Changing Climate

04-08 November 2024

Organized by

Resilient India - Disaster Free India

National Institute of Disaster Management
Ministry of Home Affairs, Govt. of India
New Delhi - 110042 (www.nidm.gov.in)

In Collaboration with

National Institute of Rural Development &
Panchayati Raj (NIRDPR), Ministry of Rural
Development, GoI, Hyderabad - 30.

BACKGROUND

India remains predominantly rural, with about two-thirds of its population residing in rural areas, and rural areas contributing 46% to the national income as per the 2011 Census. Despite ongoing urbanization, more than half of India's population is expected to remain rural by 2050. The growth and development of the rural economy and population are crucial for the nation's overall growth and inclusive development. Rural areas face unique challenges, particularly for the poor and marginalized, which intersect with disaster risk reduction (DRR) and climate change adaptation (CCA). Effective integration of DRR and CCA into sector-specific policies—covering agriculture, irrigation, rural livelihoods, infrastructure, drinking water, sanitation, housing, electrification, and transport—is essential for enhancing the quality of life in rural areas. This integration is vital for ensuring sustainable development and building resilience, ultimately impacting the overall effectiveness of development planning and outcomes.

Climate change poses significant threats to India's food security, water resources, and public health. The country's vulnerability is heightened by its reliance on climate-sensitive sectors such as agriculture, fisheries, and forestry, combined with limited technological and financial resources. India's large and dense population, coupled with a low-lying coastline and an economy heavily dependent on natural resources, exacerbates this vulnerability. With 68.2% of its 1.21 billion people residing in 640,930 census villages, rural areas are crucial to the nation's economy. Although urban areas contribute 65% to GDP, agriculture remains the primary sector, providing the largest share of employment. The growth of secondary and tertiary sectors is often dependent on the health of agriculture. Therefore, rural development is integral to India's economic stability and growth, highlighting the need for focused strategies to address climate change impacts and support rural resilience.

About NIDM

The National Institute of Disaster Management (NIDM), established under the Disaster Management Act 2005, is India's premier institute for disaster prevention and preparedness. NIDM focuses on capacity building, training, research, and policy advocacy, promoting a "Culture of Prevention" for disaster risk reduction. It collaborates with government bodies, academic institutions, and international agencies to advance its mission of creating a disaster-resilient India.

About NIRD&PR

The National Institute of Rural Development and Panchayat Raj (NIRD&PR), is an autonomous organization under the Union Ministry of Rural Development and is a premier National Centre of Excellence in Rural Development and Panchayati Raj. Recognized internationally as one of the UN-ESCAP Centers of Excellence, it builds capacities of Rural Development functionaries, elected representatives of PRIs, bankers, NGOs and other stakeholders through inter-related activities of training, research and consultancy.

TARGET GROUP

The training programme is designed primarily for the faculty from various Administrative Training Institutes, State Institute of Rural Developments along with middle level officials from the departments of Rural Development & Panchayati Raj, Agriculture, Animal Husbandry, Health & Family Welfare, Housing & Urban Development, WCD, Water Resources, Tourism, Education & Training, Environment & Natural Resources etc. from North & North-eastern States.

Course Objectives

The objectives of the programme are as follows:

- Understand DRR and Management Cycle: Learn key concepts of disaster risk reduction and management phases.
- Use PRA Tools: Get familiar with tools for assessing hazards and vulnerabilities.
- Integrate DM and GPDP: Align Village Disaster Plans with Gram Panchayat Development Plans.
- Review Rural Development: Overview of the current rural development situation.
- Analyze Linkages: Explore connections between development, disaster risk, and climate change.
- Mainstream DRR: Strategies for embedding disaster risk reduction in rural development programs.

Course Contents

The contents of the course would touch upon the following aspects, to achieve the objectives:

- Basic Concepts of Disaster Management- Paradigm shift in DM to DRR
- Institutional Framework for disaster management in the country
- Hazard, Risk, Vulnerability & Capacity (HRVC) Analysis- Concept, Tools and Techniques;
- Group Exercise
- Role of PRIs in DM & Integrating GPDP with Disaster Management Plan
- Overview of Village Disaster Management Plan & formulation of VDMC & DMTs
- Group Exercise: Standard Operating procedures of DMC and DMTs in Pre and Post Disaster Phase
- Field Visit
- Integrating Rural Development Flagship Schemes in DRR: Case Studies from across India
- Community-Based Disaster Management and the Role of PRIs
- Role of CSR in Disaster Management & Group Work
- Climate Change Adaptation practices in rural areas to minimize disaster risks

Dates & Place

04- 08 November 2024, NIDM New

Delhi Campus

Duration: Five days

Timings: 9:30 to 17:00

Mode of Instruction

The medium of instruction will be English. However, the resource persons are free to choose either local language or English during the presentation and discussion as per the demand of the participants

Transport/Travel, Accommodation, Food

- There is NO COURSE FEE
- Free Boarding and Lodging will be provided by NIDM
- To & Fro Transport Cost including Local transport is to be borne by the sponsoring organization/institute/individuals.
- Tea and working lunch would be served during the programme

Evaluation

The training programme shall have a dedicated session for feedback and valediction. The participants will be provided with an evaluation Performa, which may be completed and handed over to the programme staff.

Attendance & Certificate

Marking attendance pre-lunch and post-lunch is compulsory for certification. A certificate would be provided on successful completion.

Training Methods

Class room Lectures, Case Studies discussion, Group Discussions, Video Films, Field Visits, Pre & Post Training Assessment etc.

D.O.No.T-24011(11)/1/2024-CPSM
15th October 2024

To
The Chief Secretaries of all States/ UTs

Respected Sir/ Madam,

Greetings from the Lal Bahadur Shastri National Academy of Administration, Mussoorie!

The Academy is also now actively engaged in the curation and delivery of in-service training programs through its In Service Training(IST) Section that are aligned to the various sectors of governance. More specifically, it seeks to build the capacity of officers posted in positions that have high impact at the field level.

The In Service Training (IST) Section, LBSNAA proposes to conduct a 5-day In-service training programme for capacity building of civil servants in the realm of Infrastructure. The programme, '**Transportation, Logistics and Multi-Modal Integration**' will be curated so as to cater to civil servants positioned in the field to enhance understanding and practical knowledge in transportation and logistics. The training programme is scheduled to be held from 18th to 22nd November, 2024.

This programme is a part of DoPT's in-service training programme refer to OM No. T-22012/8/2024-IST/IIPA dated 23.07.2024 for eligible officers as AIS (IAS, IPS and IfoS) officers, up to 2019 batch and up to the rank of Secretary to the Government of India/Chief Secretary of State Governments and equivalent, Group A Officers working under the Central Staffing Scheme in the Government of India and officers of Central Secretariat Service and Central Secretariat Stenographers Service (of the level of DS/Sr. PPS and above).

While the programme is primarily designed to draw participants from the IAS particularly those in the area of Transportation, Logistics and Multi-Modal Integration, the structuring of the same also makes it suitable for officers drawn from the State Civil Services and other senior officers working in the above field. The programme is suitable for officers not only in the Transportation but also works in the warehousing, logistics and urban sector.

Contd..2..

It is therefore requested to kindly nominate suitable officers at senior level (Level 12 and above) working in this field from your State/UT for participation in the In Service Training Programme. The nominated candidates have to register themselves on iGoT platform (<https://igotkarmayogi.gov.in>) & LBSNAA's website (<https://www.lbsnaa.gov.in/>).

A short note (**Annexure 'A'**) containing the course structure and thematic content for the proposed training programme is enclosed. In this Context, I, being the Course Coordinator of the programme can be reached out for further details of the training programme.

Yours sincerely,

15/12/24
(Rajesh Meena)
Deputy Director

Five-Days In-Service Training Programme on “Transportation, Logistics and Multi-modal Integration”

Course Title- In-Service Training Programme on Transportation, Logistics, and Multimodal Integration.

As the premier civil servant training institute, LBSNAA employs rigorous Training Needs Analysis (TNA) to offer customized training. Our expert faculty, state-of-the-art facilities, and emphasis on practical application ensure unparalleled education. We integrate global best practices, emerging trends, and cutting-edge methodologies, supported by pre- and post-training assessments and participant’s feedback, to continually improve our programs. Through interactive sessions, group discussions, and experiential exercises, participants have the opportunity to engage with peers, share experiences, and forge lifelong connections.

Thematic Focus of the course:

This course explores the intricate dynamics of transportation systems, logistics management, and multi-modal integration. Participants are guided through an in-depth examination of diverse transportation modes, their significance in urban and economic contexts, and the complexities of their networks. Interactive discussions and case studies provide valuable insights into optimizing supply chain operations, emphasizing strategies for enhancing efficiency and responsiveness.

(i) Course Content

The course underscores the pivotal role of integrating multiple transportation modes to foster seamless connectivity and sustainability. Participants gain a comprehensive understanding of the multifaceted challenges and opportunities within transportation and logistics. Key topics include:

- i) **Transportation Systems and Networks:** Infrastructure and operations of various modes (road, rail, air, sea) critical for urban development and economic growth.
- ii) **Logistics Management and Supply Chain:** Efficient flow of goods from production to consumption, including strategic planning, inventory management, warehousing, and distribution.

iii) **Multimodal Integration and Interconnectivity:** Enhancing efficiency and effectiveness by seamlessly connecting different transportation modes through collaborative planning, infrastructure development, and technology integration.

iv) **Industrial Corridors & E-commerce:** Policy responses to challenges posed by e-commerce.

(ii) Target Group of Officers:

This course is designed for professionals working in the fields of transportation, logistics, urban planning, and related fields, providing essential knowledge to tackle real-world challenges in these sectors.

The target focus group includes Secretaries in State Governments, HODs, Directors, Additional / Dy. Secretaries, and senior professionals from infrastructure departments (Roads, Railways, Shipping & Ports, Warehousing, Public Works, Civil Aviation, Urban Development) and revenue officials in State Governments. It also includes MDs/AMDs of Road Development Corporations, senior officials from Port Trusts, and Municipal Commissioners of Tier 1/2/3 cities. Additionally, officials and technical cadres from the Ministry and its regional offices are included.

(iii) Profile of speakers intended to be invited:

Senior government officials at the union and state levels working in the area of Transportation, Logistics, and Multi-modal Integration, faculty of eminent institutions working in transport, particularly practitioners in the fields of Railways, Civil Aviation, Shipping & Ports, Warehousing, Transport Corporations, experts in the area of best practices in transportation and logistics, focusing on efficiency, sustainability, and innovation in transport systems.

Course duration:

18th to 22nd November, 2024

Course Coordinator:

Shri Rajesh Meena, IAS, Deputy Director
