### 1st One-year Public Health Policy and Administration in Government Healthcare Initiatives (PHPA-GHI) at Indian Institute of Management - Indore

The 1<sup>st</sup> One-year Public Health Policy and Administration in Government Healthcare Initiatives (PHPA-GHI) at Indian Institute of Management - Indore will commence from September 15th 2025. Unlike the other existing Long Term Domestic Programmes of this Department, which have full time components of institutional attachment, the PHPA-GHI has been conceptualized as an officer friendly domestic training programme on Public Health Policy and Administration in Government Healthcare Initiatives without any international component. This provides the advantage of minimal dislocation of officers from their workplaces and allows them to continue with their current assignment/posting during the duration of the course. The Public Health Policy and Administration in Government Healthcare Initiatives is designed specifically for medical professionals and administrators, professionals associated with healthcare and allied sectors, including allied healthcare service providers, to provide them a comprehensive understanding of healthcare management. This programme aims to equip healthcare professionals with important healthcare management practices, HR Practices, strategies, finance and accounting concepts and analytical skills which are relevant in all aspects of effective healthcare management. The PHPA-GHI program will use the latest technological tools to bridge the distance without compromising on the program delivery.

The programme shall be coordinated and delivered by expert faculty members from IIM Indore. Participants will be required to attend the programme in residential or online mode, as per the schedule. Classes would be scheduled daily between 09:00 AM and 05:15 PM at on campus, and online classes will be held on weekend. Participants would also be assigned tasks for self-study, group activities, or field visits during the programme. Indian Institute of Management-Indore (IIM-I.) shall use a judicious mix of lectures, case-studies, discussions, group activities, field visits, and prescribed reading material to increase the effectiveness of the training. The programme will be designed to maximize experiential learning by enabling greater interaction among peers to gain deeper understanding of the topics.
