My dear Smt. Keshni Anand Arora,
Sub: Publication of a Biannual Journal of HIPA

In the endeavor to achieve its mandated role, the Haryana Institute of Public Administration is engaged in providing training, research and consultancy to effect professionalism and efficiency in administration. To enhance the academic relevance of the efforts undertaken, we disseminate the latest research and impact studies through periodic publications. I am delighted to inform that from this year we are planning to start a refereed professional journal which shall provide a nuanced perspective in the fields of public administration, policy sciences, governance, fiscal and financial management, leadership in administration and other social issues of contemporary relevance.

To begin with, it will be published bi-annually in both English and Hindi under the title *Haryana Journal of Public Administration*. We intend to underline the narrative of development and achievements in the state of Haryana along with the conceptual evolution in public administration and its applied areas worldwide.

In this regard, it will be highly rewarding if the officers of state government, who are the *de-facto* contributors to various fields of governance, policy making and public administration share their experiences and views for the journal in the form of policy reviews, case studies and research papers, etc. This will help in disseminating the heuristic inputs to a wider readership in civil services as well as the academic world and also bring the prospective contributors closer to scholastic community.

I deem it a privilege to invite you to contribute for the inaugural issue of the journal. You may also like to circulate this request among colleague officers of Central and State services for contributing to the new journal.

I look forward to your esteemed contribution.

Regards,

Yours sincerely,

(G. Prasanna Kumar)
