Indian Institute of Corporate Affairs - Synopsis

Indian Institute of Corporate Affairs (IICA) has been set up as a Registered Society, which will serve as a holistic think tank, capacity building, service delivery Institute to help corporate growth, reforms and regulation through synergized knowledge management, global partnerships and real time solutions.

2. The Vision, Mission and Strategy of IICA are being recrystallised now, based on the elements captured in the following four alternative statements:-

- (i) 'To redefine the corporate landscape in India for thriving on 'future shocks', through ethical, sustainable, competitive business strategies, with corporates and government working in partnership for inclusive growth and global footprint.'
- (ii) 'To provide an institutionalized convergence mechanism for corporates and government to work as partners, for constantly refining and redefining the corporate laws & policy framework and governance & delivery systems, to usher in new business paradigms, and create innovators, ethical entrepreneurs and global business leaders of tomorrow.'
- (iii) 'A holistic think-tank, capacity building, service delivery institute to help corporate growth, reforms and regulation through synergised Knowledge Management (KM), partnerships and problem solving in a one-stop-shop mode.'
- (iv) 'A truly world class institute, net-worked with premier national / international institutions / organizations, to act a think tank on all issues vital for effective functioning of corporates, to evolve and establish a new multi-disciplinary academic stream to be called 'corporate affairs' for corporate professionals and entrepreneurs, and to be a catalyst and delivery mechanism for capacity building amongst all stakeholders.'

3. IICA has been registered as a Society. The Board of Governors will have 15 Members, more than 2/3rd of which would be from amongst eminent corporates, professionals, institutions and experts. The Board would lead and govern the institution on an autonomous basis. IICA would create the global business leaders and wealth creators of tomorrow. It would also focus on entrepreneurs, SMEs, Limited Liability Partnerships and associated employment creation.

4. IICA is conceptually unique. It will take-up/treat holistically all issues/disciplines which impact on corporate effectiveness and functioning. It is the first institution being set up to be formally the 'think-tank' for a major Ministry of Government of India. Symbiotic partnerships with Corporates, Professionals and World Class Universities / Institutions / Experts will be built into it's DNA. Knowledge creation and knowledge management are key components of it's strategy for excellence. Inclusive growth issues would receive focused attention through Corporate Social Responsibility initiatives. Capacity building, Organizational Development (OD) and innovation, both in government and corporate sector, would lay the foundation for effective interventions. Global knowledge will be applied for finding local solutions. Latest pedagogy and learning models would be drawn upon, including distance education, e-learning and self learning.

5. A state-of-the-art and IT-enabled Knowledge Management (KM) system will synergise the initiatives and capabilities of the five Centers within IICA, as also with it's partners. It will provide a two-way window between India and the world on the corporate land-landscape, developments, performance, potential and data. Knowledge creation would include large scale action research on actual ground level issues / problems, for finding real-time, solutions and capitalising on immense opportunities thrown up by environmental / energy / technological challenges. The KM system will also disseminate knowledge / information / data to all stakeholders whenever & wherever they need it, in an easy to understand and use format.

6. The institute would plan it's priorities / activities on the basis of alternative visions of the likely future world / national economic scenario, and work with Government, Corporates, Professionals etc. to proactively set in place appropriate legal framework, policy prescriptions, institutional structures and delivery systems for optimizing economic growth and productivity.

7. A number of institutions in India and abroad, as also captains of Indian industry have indicated interest/support for the institution. Partnership with IIT, Kharagpur, George Washington University (Law School), Washington DC, USA and the Evian Group IMD, Lausanne, Switzerland are already in advanced stages of finalization. Distinguished President / Deans / Professors from Carnegie Mellon University, Kellogg School of Management, Yale University etc. have also evinced interest, in addition to institutions like IIM, Bangalore and other international / multi-lateral organisations / institutions.
