Dear Sir,

Season's Greetings.

I have the pleasure of informing you that in cooperation with IBM, PCBs, DFOs, MOEF, etc, we will be offering a Short Term Course on "Land Acquisition, Rehabilitation, Forest and Environmental Clearance of Projects" from 05th February – 09th February 2024. (Course Identification Name: LARECP).

The understanding and expertise in land acquisition, environmental clearance, and industrial regulations will be crucial for all organizations looking for expansion. Their implementation remains a critical path; the objective of the course is to make the persons in charge understand the issues with better clarity. As was in the other similar courses, the participants will meet the regulators, experts, and policy planners to learn the requirements of land acquisition, environmental clearance, and new industrial regulations. This course provides a unique opportunity to network with each other that is beneficial to any organization. The trained persons will be a valuable asset for any organization.

Sessions will be undertaken by industry experts, famous academics, and professionals. All previous courses drew a large number of participants from the governments, industry and regulatory boards, etc. The course will be useful for the executives in your organization who are involved with the tasks of land acquisition, forest, and environmental clearance, Mines / Factories Act, Contract Employment Act, and Environment Protection Act, etc.

I request you to send nominations of your executives for the course.

Please do not hesitate to pass your comments/suggestions on the course. Further, we will request you to respond as quickly as possible to serve you well.

Thanking you,

With Regards

Rabindra Nath Samanta

1. Introduction

Land acquisition has got a new dimension after the passing of the new LARR Act 2013. In a way it has given a new subject of discussion, "Land and People Management". Today land acquisition is linked to compensation, rehabilitation and corporate social responsibility. Forest and Environment clearance is, without much doubt, also one of the most important factors for project delay and cost overrun for all kinds of Industrial and public project actively, large or small. Much of these arise from the mismatch of expectations among three parties - the developers, the regulators, and the stakeholders.

Additionally, In the recent years Important laws like Prevention of Money Laundering Act, Prevention of Sexual Harassment Act and Contract Labor Act have been made to make the people in charge of such activities to be sensitive of such issues at the workplace.

What started in the Environment Protection Act, 2006 for a few select Industries and activities, today span over almost all public activities that have some form of discharges in the environment. With the environmental problems exacerbating, more and more stringent norms are coming in place.

With this in mind the IIT, Kharagpur with resource personnel co-operation from the IBM, MoEF, PCB, DFOs and other relevant agencies has designed a short term course for the executives of the industry, civic and public services and affairs to be held under the auspices of IIT, Kharagpur from 05.02.2024 to 09.02.2024.

2. Topics and Coverage

1. Constitution and Act in India.
2. Land Acquisition, Rehabilitation and Resettlement Act.
3. Environmental Clearance Notifications and Circulars.
4. Forest Rights Act
5. Land Diversion of Forest Land, Forest Clearance
6. Roles of Administrators, and Civic and Village bodies
7. Environmental Science of Soil, Air and Water, and Biodiversity Protection.
8. Comprehensive Environmental Impact Assessment Criteria and Checklists.
9. Public Hearing.
10. Corporate Social Responsibility
11. Dealing with Consultants and Report Preparation.
12. Recent Regulations Contract Labour Act, Sexual Harassment Act & PMLA.
