Sir,

Sub: Conduct of Training to Personnel of Other services –reg.

Indian Sandalwood (*Santalum album*) is the nature's gift of Indian forestry. The wood is used for carving and the aromatic essential oil is globally known for its use in perfumes, pharmacy, religious and industrial application. However, this valuable tree from India has been categorised as 'Vulnerable' by International union for Conservation of Nature.

Institute of Wood Science and Technology is recognised as Centre of excellence for Sandalwood Research. To conserve, popularise and revive the glory of Indian Sandalwood the institute has been conducting varied research and extension activities. The Institute is conducting a virtual training programme on Sandalwood cultivation and its prospects on 26th and 27th August, 2021 to sensitise personnel of other services (excluding state Forest Department) on this important species. The training would provide basic information related to its cultivation and allied aspects. This training is being sponsored by Ministry of Environment, Forest and Climate Change, Government of India.

It is requested to kindly nominate officers from allied services and they can register with the link provided below-

Virtual Training on
Sandalwood Cultivation and its Prospects

26-27 August 2021

The institute is recognized as Centre of Excellence for Sandalwood Research and Wood Science. This training program is specially designed to give an insight of Sandalwood and basic techniques of its cultivation and prospects

Indian Sandalwood (*Santalum album*) is the nature's gift. The wood is used for carving and the essential oil is globally known for its aroma and extensively used in perfumes, pharmacy, religious and industrial applications. This valuable tree can be cultivated as a profitable venture.
